

As we reflect on the past year at South County Habitat for Humanity, we are proud to announce that eight families now have a place to call home. Each home symbolizes not just a structure, but the promise of stability, community, and hope for a brighter future.

While we celebrate our achievements, we also recognize the significant challenges ahead. The shortage of affordable housing has reached critical levels, leaving many families struggling to secure safe and stable living conditions, often having to choose between basic needs like food, healthcare, and housing.

Looking to the future, we are excited to prepare for a major project: a neighborhood of 22 homes in Westerly. This initiative reflects our steadfast commitment to addressing the housing crisis. It is the support of individuals like you that makes this endeavor possible. Thank you for your continued dedication to our mission. Together, we are building a future where everyone can have a place to call home.

In partnership,
Colin Penney
Executive Director

2024 Highlights

The inaugural South County Habitat Pride Build was held in June 2024.

ReStore covered 100% of South County Habitat's overhead expenses.

South County Habitat secured an \$895,000 grant to purchase an 11-acre lot in Westerly. This property will be developed into 22 single-family homes for families in need.

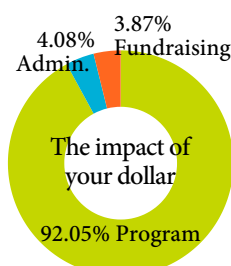

Construction began on Phase 2 of Cardinal Lane.

A joint dedication ceremony was held for the first three families on Cardinal Lane.

South County Habitat hired a Homeowner Services Coordinator to enhance the homeownership program and develop educational workshops.
